

SMART-X®

THE DISTINCTIVELY UNIQUE LIGHTWEIGHT FOAM BOARD

- Smart-X® is a lightweight, all-plastic sheet material with surfaces of UV and weather resistant solid polystyrene (HIPS) and a core of expanded polystyrene that is completely moisture-resistant. Moreover, Smart-X® is a mono-material composite (no adhesive between core and cover layers) made from 100% polystyrene and, therefore, perfectly meets the demand for ecological materials.

WHY CHOOSE SMART-X?

- Very rigid with very low weight
- Brilliant printing results with direct digital printing, offering vibrant colors even for exterior applications
- Very good resistance to weathering – with high UV stability and humidity resistance
- Low resistance during routing or milling which makes this material perfect for processing signs, displays, and dramatic in-store lettering

(Please contact technical services for exterior use recommendations)

SMART-X – THE GREEN ASPECT

- Smart-X® with a homogeneous compound is 100% recyclable
- About 95% of the production waste of Smart-X® is collected and recycled on-site

PRODUCT AVAILABILITY

| | Gauges | Facers | Foam | Size |
|-----------------|--|--------|-------|-----------|
| Smart-X® | 3/16" (5mm), 3/8" (10mm) 1/2" (13mm), 3/4" (19mm) | White | White | 48" x 96" |
