

## SUPRAFLEX® ECLIPSE BLOCKOUT BANNER

**Piedmont Sign Grade® SupraFLEX® Eclipse is a double-sided blockout banner** with a super smooth finish for a superior print quality. It offers a high degree of opacity to hide images printed on the reverse side or prevent image washout from lighting behind the banner.

**PSG® SupraFLEX® Eclipse is an excellent product for pole signs, point-of-sale displays, trade show exhibits and pop-up display applications.**

**This product is also available in:**

- Alternative weights and weaves
- Fire Retardant material adhering to NFPA 701:2010 Standards

## PRINT TECHNOLOGY CAPABILITIES

- Solvent
- Eco-solvent
- UV
- Screen Print
- Latex\*

*\*Materials should be tested on latex printing equipment due to the variation of heat used in the process.*
