

ULTRA LOW TACK  
REPOSITIONABLE PRINT MEDIA

NEKOOSA SPECIALTY MEDIA

Ztac™ is an ultra-low tack, repositionable polyester film designed for easy application and removal on very smooth indoor surfaces.

Ztac™ is a premium graphic film that combines a dimensionally stable polyester and a proprietary adhesive system that is easy to apply, reposition multiple times, and removes without leaving a trace of residue behind. No matter how many times Ztac is repositioned, it will keep its original shape and will not dog ear. Especially designed for ease of installation, Ztac is perfect for indoor applications to very smooth surfaces such as windows, glass, and polished metal\*. Ztac is PVC free and can be recycled as a #1 polyester.

#### Ztac™ Offset

With a proprietary patterned adhesive and a sturdy backer, Ztac can be applied wrinkle/bubble-free, and removes cleanly without leaving behind any adhesive residue. Ztac consists of a polyester (PET) face and a 10 pt. printable backer.

#### Ztac™ HP Indigo

Optimized for exceptional ink-adhesion on HP Indigo presses, Ztac for HP Indigo is the window graphics solution for sheet-fed digital printing. Ztac for HP Indigo consists of a top-coated polyester (PET) film on a 10 pt. backer.

#### Ztac™ Wide Format UV

Ztac Wide Format UV is ideal for larger, promotional messages on a variety of smooth surfaces. Allows for easy installation and tiling of large graphics, with a 63# printable backer.

\* ZTac is not recommended for computer or tv screens.

#### Applications

- In-Store Promotional Signage
- Large Format Graphics
- Tileable Murals
- P.O.P. Signage
- Reverse Sided Graphics
- Trade Show & Event Signage
- Window Graphics
- Holiday Décor & Decals
