

GemTrim™

Make your channel letters stand out

Add a finishing touch to the channel letters being produced in your shop. GemTrim trim cap lets you easily add accent color, depth, structural integrity and value to your products. Industry-leading GemTrim bonds easily, is UV stable, won't fade, crack, peel or delaminate, and is available in three widths. Our wide selection of standard colors are offered in-stock through our nationwide network of stocking partners. Gemini can also custom color match for your specific program. Call for quote.

Introducing 2" Wide GemTrim

We've just expanded our popular line of $\frac{3}{4}$ " and 1" wide GemTrim trim cap with the addition of 2" wide rolls in our most requested colors.

Made True.
