

GPO-3 THERMOSET

SOLUTIONS

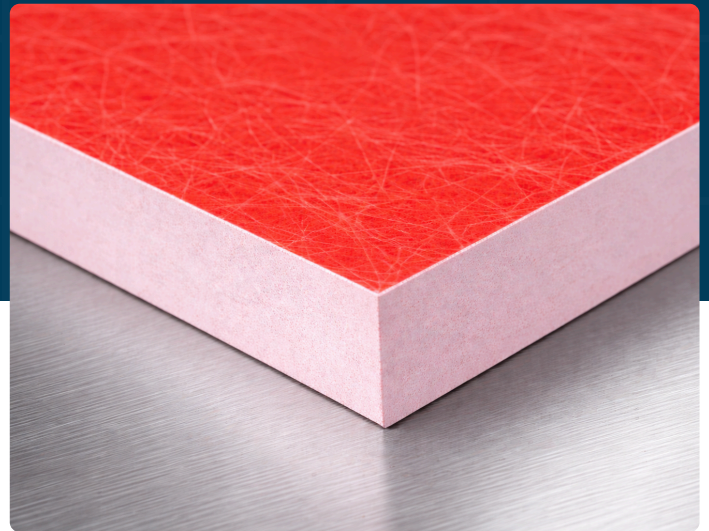

Who We Are

Piedmont Plastics is a wholesale distributor of performance plastic materials. With more than 50 locations across North America, we supply plastic sheet, rod, tube, and film to a wide range of industries, including industrial and electrical sectors.

Common Applications

The versatility and characteristics of GPO-3 allow it to be used in applications such as:

- Switchgear
- Bus Bars
- Core Blocks
- Arc Shields
- Transformer Barriers
- Standoff Insulators
- Power Distribution Units
- Electrical Panels and Cabinets
- Dry Transformers
- Circuit Breaker Parts

Benefits of GPO-3

GPO-3 is a fiberglass reinforced thermoset that offers numerous benefits for electrical and high-heat applications.

- Great electrical insulator
- Strong and stiff
- Flame, arc, and track resistance
- Low smoke and smoke toxicity
- Impact resistant
- Dimensionally stable
- Available in sheet, rod, and profiles

Why Piedmont?

Piedmont Plastics delivers more than just materials. We're your trusted source for:

- Wholesale Distribution
- Fabrication and Custom Sizing
- Industry Expertise
- Nationwide Stocking
- Local Inventory
- On-Time Shipping
